

DON'T SUPPORT PARANOIA

The governor of our state, as well as a few of the regular RDR "letters to editor" writers and most of the Left, is adding more paranoia to this already growingly paranoid world. The so called Covid-19 virus rules are NOT "laws"; they are "ordinances or regulations" imposed on us by a single person (Flo, you should know better as a former educator). Laws are written by duly elected legislators. If we lived by the rule of one person's rules, then we are NOT a democracy and our U.S. Constitution and State Constitution would be a farce.

I am 74 years old and considered "at risk" because of existing medical conditions, but refuse to give in to paranoia. I say let life run its normal course. I live by Philippians 4:13 (KJV) "I can do all things through Christ which strengtheneth me" and Philippians 4:11 (KJV) "... for I have learned, in whatsoever state I am, therewith to be content." I do carry a mask, and will put it on when needed, because I am respectful of those who are already paranoid.

Remember Benjamin Franklin: "Those who would give up essential Liberty, to purchase a little temporary Safety, deserve neither Liberty nor Safety. "

Rev. George A. Lee

Roswell, New Mexico
